Work Experience

Full Stack Dev @ Autonmis - Remote

Jan 2025 - March 2025 | Part Time

- Building connectors to ingest data from multiple to single source in our platform
- Improve UI for better user experience.

Skills Developed: Airflow, Data Ingestion workflow, OAuth integration

Web Dev Trainer @ Genrix Info Tech - Sakchi, Jamshedpur

March 2024 - Current Working | Semi-Full Time

- Mentoring High School and Degree students in Full Stack Web Development

Skills Developed: Teaching, Team Management

Project Manager @ Foruppo, Remote

Dec 2023 - May 2024 | Semi-Full Time

- First project was all about creating a platform related to yoga and mental health. ([website](#))
- Second project where we created a platform in which our aim was to "foster critical thinking through respectful, diverse, educational debates". ([website](#))
- Third and our last project currently we are working on is related which I can't talk about as some security concern.

Skills Developed: Project Management, Project Planning, Project Coordination, Agile Software development

Building Code First

Founder, Dev, Manager | [CF Community](#)
